

embrace the **Linux terminal** and the **command line**

```
root@kali:~/newdirectory# echo hello world
hello world
root@kali:~/newdirectory# echo hello world > newfile
root@kali:~/newdirectory# cat newfile
hello world
root@kali:~/newdirectory# echo hello world, a second time > newfile
hello world, a second time
root@kali:~/newdirectory# echo hello world, a second time >> newfile
hello world, a second time
hello world, a third time
```
